PROGRAMME DEVELOPMENT AND IMPLEMENTATION

For the EEA and Norway Grants, 2020 was a year of implementation and continued contributions to reducing economic and social disparities in Europe, and strengthening relations between the Donor and Beneficiary States. With 15 programme agreements signed in 2020, the Grants are creating even more opportunities for potential project promoters and project partners to implement their ideas. The figures presented below are cumulative and reflect activities spanning the 2014-2021 funding period until the end of 2020.

28 cooperation agreements were signed with **15 Beneficiary States**¹

96 programme agreements² were signed with 14 Beneficiary States³

287 calls for project proposals were launched⁴

€890⁵ million were allocated to **1 600 projects**⁶

Cooperation is at the heart of the Grants. As of 31 December 2020: **44% of funded projects have a project partner from one of the Donor States. 500+ project partners⁷ from the Donor States take part in funded projects.**

In Lithuania, three **Fixus Mobilis** 'heritage ambulances' criss-cross the country to inspect and assess cultural heritage sites and plan necessary interventions together with owners of cultural heritage objects. The Lithuanian Cultural Heritage Center – the project promoter behind the Fixus Mobilis project – has partnered up with the Association for Employers in the Church of Norway and the Norwegian Directorate for Cultural Heritage. They plan to examine 200 objects by 2024.

The **Med Mentors** project in Bulgaria supports medical students from Roma communities across the country to succeed in their studies and subsequent careers. By improving the students' opportunities and success rates, the project addresses the growing shortage of health workers in Bulgaria. Participants receive a scholarship for an academic year, and complementary mentorship support from other medical professionals.

1. 15 cooperation agreements were signed under the EEA Grants and 13 under the Norway Grants. 2. 52 are funded by the EEA Grants only, 24 by the Norway Grants and 20 by both the EEA and the Norway Grants. 3. The Grants in the global context

The EEA and Norway Grants reflect Iceland, Liechtenstein and Norway's commitment to working together for a green, competitive and inclusive Europe. Through the Grants, the Donor States support the Beneficiary States' contributions towards the United Nations' Sustainable Development Goals and the European Green Deal. In the current funding period, the Donor States have allocated €457 million to address environmental issues.

8. EEA Grants only 9. Out of 609 jobs, 395 were created with support from the EEA Grants, and 214 from the Norway Grants. 10. Out of 288 SMEs supported, 200 were funded by the EEA Grants, and 88 by the Norway Grants. 11. Out of 729 projects with partners from the Donor States, 114 partnered up with entities from Iceland, 6 from Liechtenstein and 656 from Norway. 12. Out of 1100 researchers supported, almost 500 were funded by the EEA Grants, and 600+ by the Norway Grants.

Funds

Fund for Youth Employment

The Fund for Youth Employment contributes to sustainable and quality youth employment in Europe. Unlike the ordinary programmes funded by Iceland, Liechtenstein and Norway, the Fund for Youth Employment has a transnational focus – it helps entities across Europe pool their efforts and find new ways of reducing youth unemployment.

2 500+ young people have been supported in their job search

€60.61 million

3 200+ young people are now enrolled in education and training

890+ young people are in the process of starting their own businesses

3 600+ young people have benefited from 41 new services such as training

670+ young people are taking part in apprenticeships or mobility schemes

330+ new jobs have been created

Fund for Regional Cooperation

The Fund for Regional Cooperation tackles common European challenges through regional cross-border and transnational cooperation. The supported projects encourage knowledge-sharing, sustainable cooperation in areas such as the private, public and civil sector and academia as well as better policy development.

€31.89 million
